Warren Turner, Electronics

Suzanne Sarafian, Secretary

Dr. Richard T. Guidoboni,
Instructor, D.A.

Elinor Kazukonis, Auxiliary Aide

Dr. Robert O. Kirk, Instructor
D.A.

This was the year of the arrival of the new computer. Unfortunately, the Seniors never got to take advantage of it since it came just as we went out on co-op.

We also had to say goodbye to Don Mosell and Dennis Peabody of the Service Bureau, but were able to welcome Jimmy Kent who, along with our own Rick Donila, will participate in the conversion of the new Univac 90/30.

Dever — Tufts Dental Clinic

Wrentham - Tufts Dental Clinic

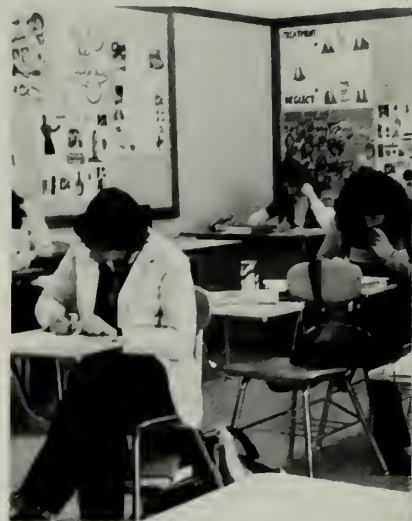

Boston

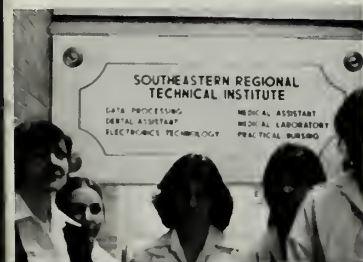

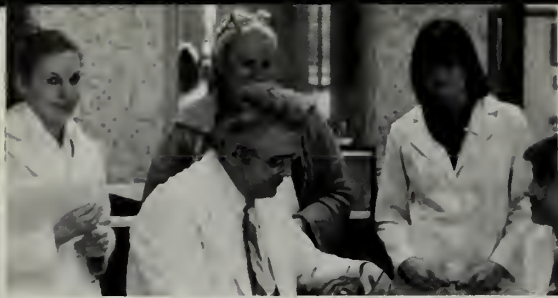

This year, the Technical Institute Dental Assisting program has affiliated with Harvard and Tufts Dental Schools in a collaborative effort to provide the Dental Assistant student body with clinical experience throughout the academic school year. This affiliation offers all Dental Assistant students the opportunity to experience actual patient contact in a dental office.

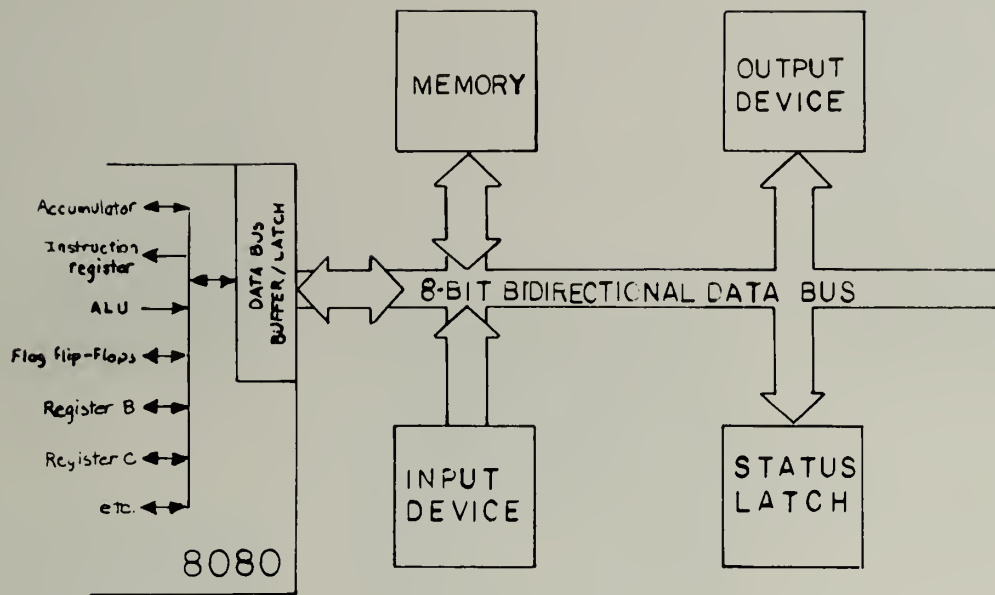

During the last 12 weeks of the year some of the students will extern at the Harvard Dental School campus, thus providing those students with the most up to date techniques in Dental Assisting. The Technical Institute is honored to work with these schools, and look forward to future years of affiliation with them.

L. P. N.'s Who Us?

Its up at 6, another school day
 Better grab a coffe on the way.
 Before were thru my arms will break
 From all these books we've got to
 take.
 Its rush, rush, rush in hastened gait
 Its not worth the lecture if you are late!
 Miss Burns starts off with A & P
 Why are there so many parts to me?
 Now Mrs. Cushman talks about food
 Sure puts a cramp in your eating
 mood!
 Math test! Oh no that isn't next?
 I do believe, I need a rest.
 But this is where the fun begins
 Here comes Miss O'Brien full of grins!
 Its pass off time and nerves start
 rattling
 One by one we do our battling
 It takes every ounce of strength you've
 got
 To find out all that you've forgot.

At practice time I did it right
That was till Miss O'Brien came into
sight
Then ace wraps flew and D.S.D.'s got
dropped
Think I'll change professions and grab a
mop.
If by chance you pass all this
They give you more chances to try
and miss
The clinical days go by with speed.
Review all procedures you will need.
Cause if you don't you better think
twice
Come evaluation you'll pay the price!
Well somehow or other you made it
thru that,
You actually got a strip on your hat.
The speeches flow, speaker after
speaker
Your knees are shaking getting weaker
and weaker.
And when its done, all the trim and the
fuss
Were all sitting stunned "L.P.N.'s! Who
Us?"
